

SPECIALIZED TESTING

LabConnect provides you with the scientific expertise your tests require along with the project management and client service tools you need to ensure data and sample integrity.

Let us focus on your specialized testing needs, so you can focus on the research.

With more than 4,000 validated tests across its network, LabConnect is the only central laboratory partner you need for everything from general safety testing to the most complex molecular diagnostics and biomarker analyses.

LabConnect's extensive test menu includes specialized oncology assays, biomarker analysis, pharmacokinetic analysis and method development services. Using our global network of central laboratories, LabConnect provides you with the scientific expertise your tests require along with the project management and client service tools you need to ensure data and sample integrity.

To support your complex testing needs across many locations, LabConnect's integrated SampleGISTICS™ system provides web-based, real-time sample tracking, including collection, shipment and receipt at any laboratory or location worldwide. The system enables virtual accessioning, real-time data cleaning and online visibility of your inventory.

LABCONNECT'S TESTING CAPABILITIES INCLUDE:

Clinical Pathology

- Biochemistry
- Hematology
- Immunology
- Microbiology
- Molecular oncology and cytogenetics

SPECIALIZED TESTING (cont.)

LabConnect is the only central laboratory partner you need for everything from general safety testing to the most complex molecular diagnostics and biomarker analyses.

Biomarker Analysis

- Immunohistochemistry
- Cytokine detection and quantification
- Novel biomarker assay development and validation
- Gene expression analysis

Pharmacogenomics

- RNA/DNA extraction
- Genotyping

Anatomic Pathology

- Histopathology
- Immunohistochemistry
- Cytopathology
- Flow cytometry and immunophenotyping

Molecular Diagnostics

- Viral load analysis
- High-resolution HLA genotyping

Analytical Chemistry

- Specialized assay development and validation
- Pharmacokinetic testing
- Mass spectrometry

ABOUT LABCONNECT

Founded in 2002, LabConnect provides global central laboratory services including routine and esoteric laboratory testing, kit building, sample management, biorepository and scientific support services for biopharmaceutical and CRO clients. LabConnect's unique combination of state-of-the-art technology, world-class laboratories, easy access to emerging markets and extensive specialized testing expertise means the drug development industry can rely on a single provider for all of their central laboratory service needs.
